WC1055

Small up to 5 Tonne
* Shown with mounting bracket

WC1075

Medium up to 40 Tonne

WC1105

Large up to 150 Tonne

WC1155

X Large 150 Tonne and above

Westchock are designed around the rugged requirements of the Australian mining, construction and transport industries, all Westchock products are built tough and are easy to handle and use.

Westchock wheel chocks are made from UV stabilised polythene, have inbuilt strength through clever internal crush resistant supports moulded into the one design, they are then polyurethane foam filled under pressure to ensure maximum fill, giving maximum strength with minimum weight making these chocks very user friendly and efficient.

All Westchocks have skid resistant rubber feet or strips to minimise the possibility of slippage even on very smooth surfaces, and all have easy to grab handles moulded into the main body of the chock.

WESTCHOCK

CODE	DIMENSIONS	WEIGHT	LIMIT
WC1055	300mm L x 240mm W x 165mm H	1.5kg	Small Up to 5 Tonne
WC1075	560mm L x 330mm W (plus 90mm handle) x 280mm H	8.0kg	Medium Up to 40 Tonne
WC1105	580mm L x 400mm W x 270mm H	9.5kg	Large Up to 150 Tonne
WC1155	650mm L x 440mm W x 390mm H	12.5kg	X Large 150 Tonne and above
